- Rosemarie Muscolo
- Stephanie Vaughey

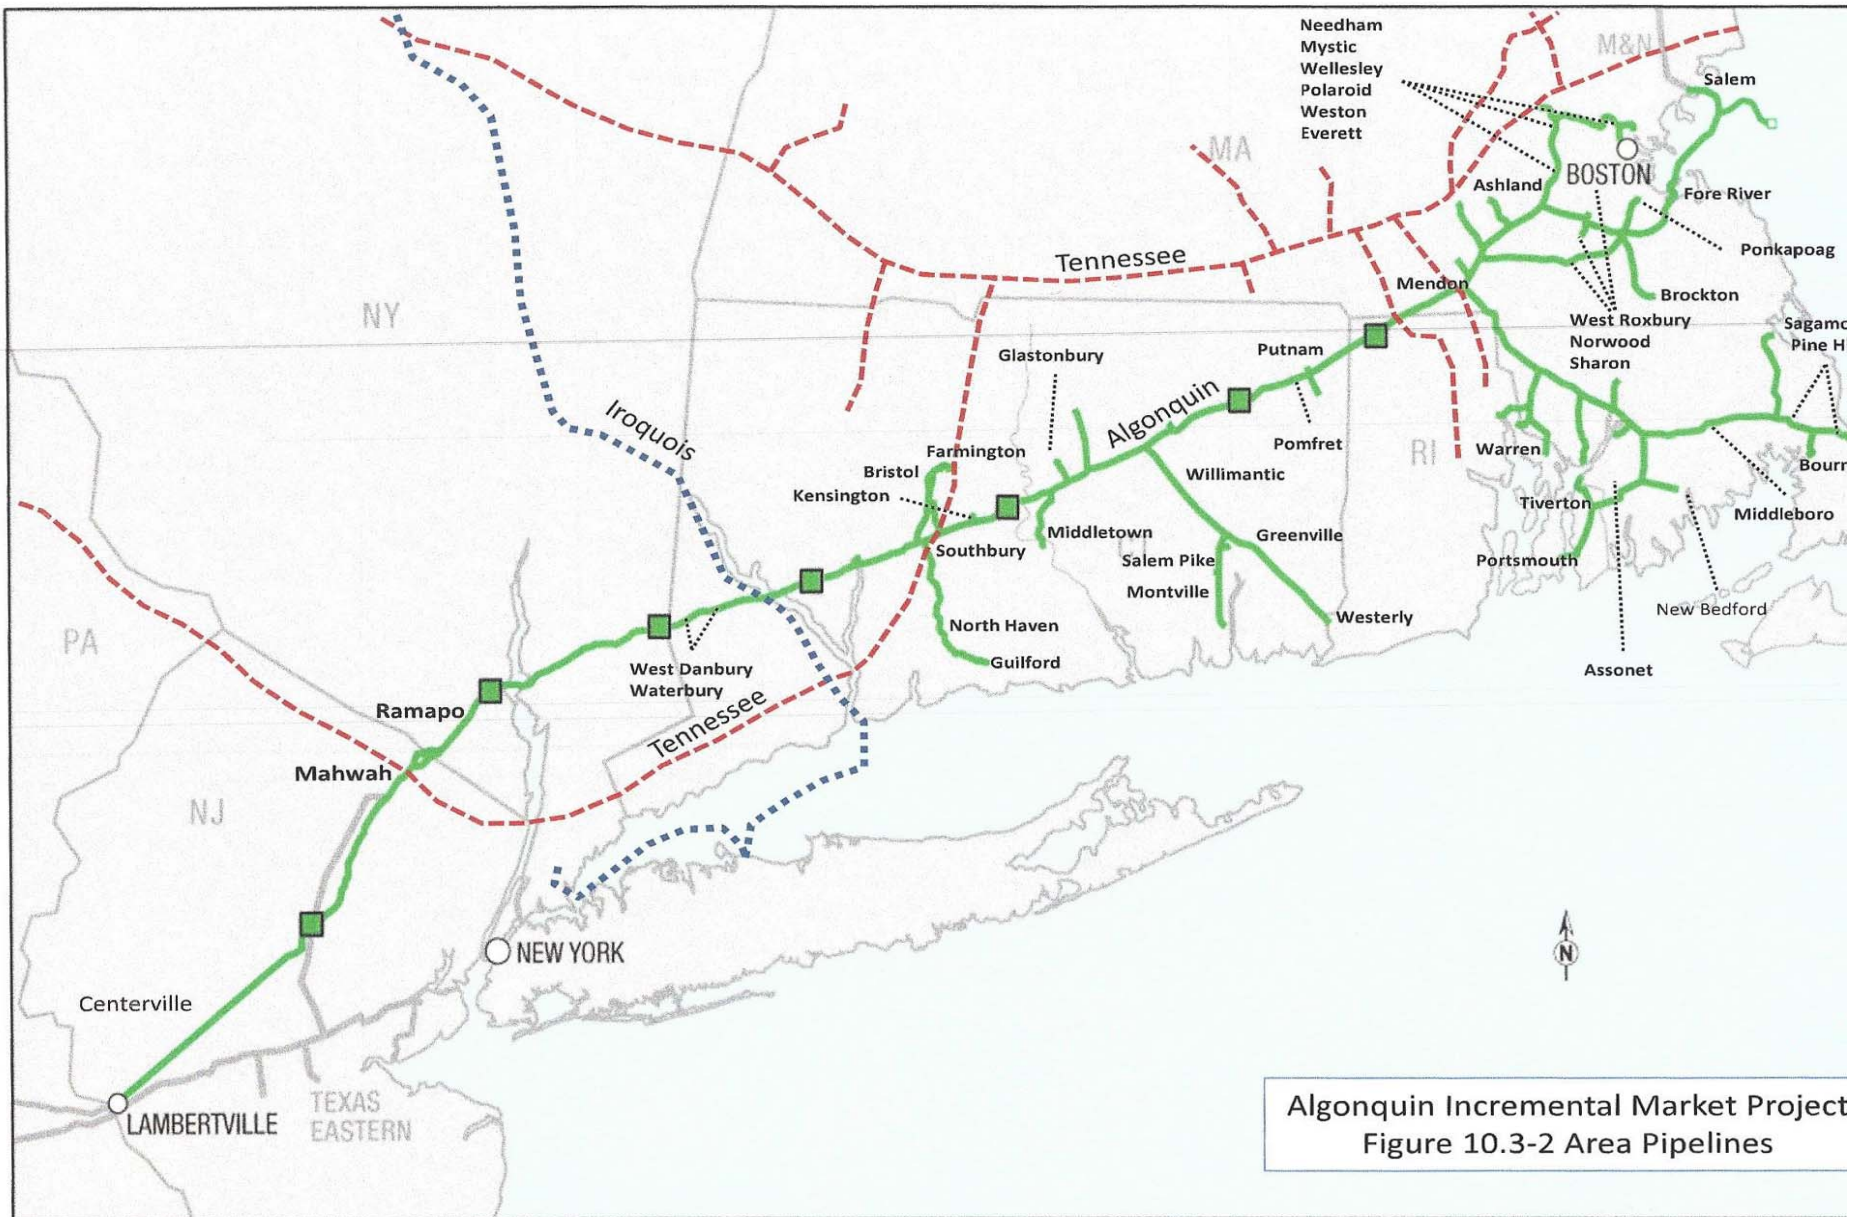

Staff Advisors: Thomas F. Wood, Esq, Town Attorney  
Ed Vergano, P.E., Director DOTS  
Jeff Coleman, P.E., Director DES

# From the Spectra Energy Website

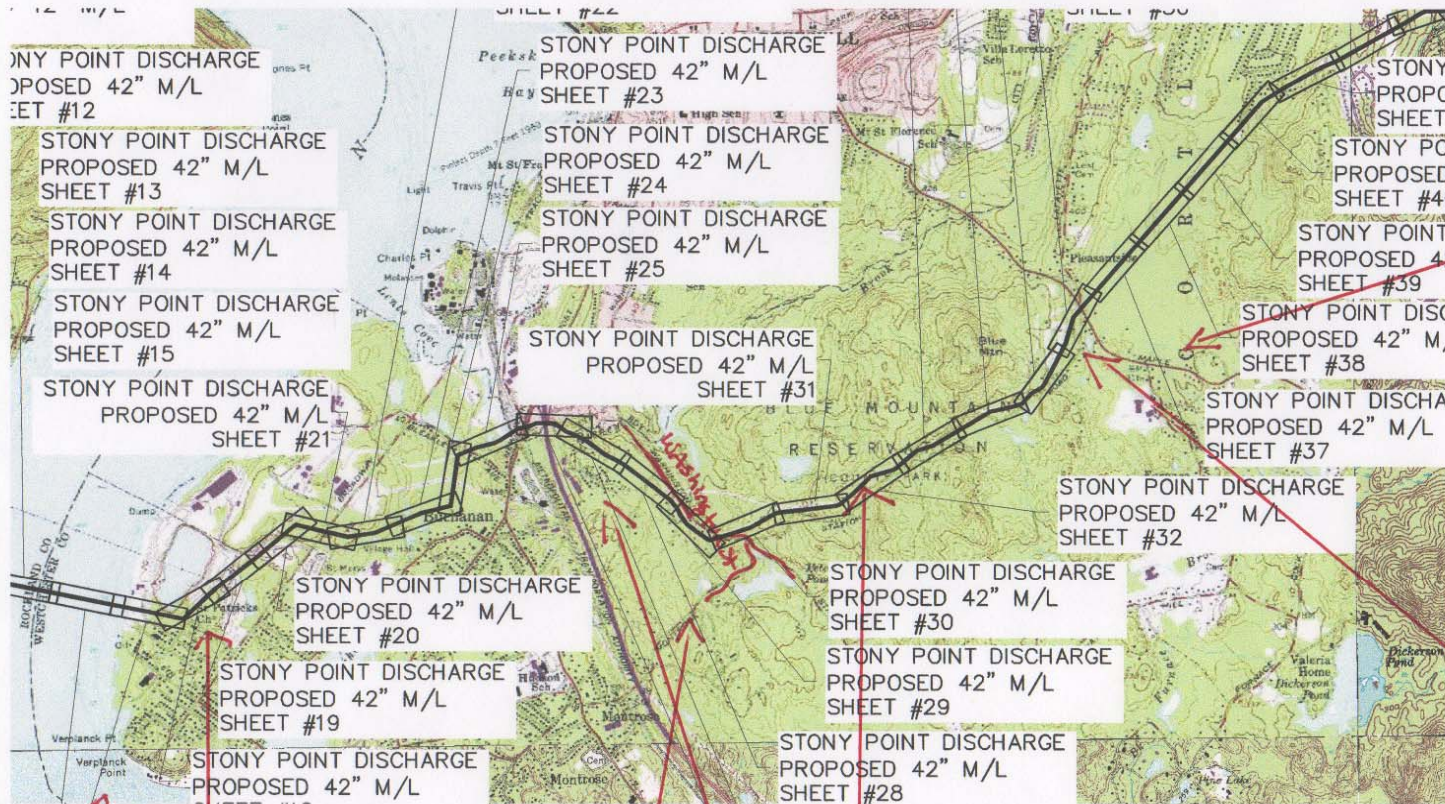

# From Spectra Energy Website:

- **PROPOSED PROJECT FACILITIES**
- Construction of approximately:
  - 20.1 miles of 42-inch diameter mainline take-up/relay and new pipeline in Connecticut and New York (includes a new 0.7 mile horizontal directional drill crossing of the Hudson River in New York);
  - 9.1 miles of 16-inch diameter take-up/relay pipeline in Connecticut;
  - 1.3 miles of 12-inch diameter loop pipeline in Connecticut;
  - 2.0 miles of 36-inch diameter loop extension pipeline in Connecticut; and
  - 5.1 miles of new 16-inch and 24-inch diameter lateral pipeline in Massachusetts
- Addition of six new compressor units, for a total of 81,620 additional horsepower, at five existing compressor stations in New York, Connecticut and Rhode Island
- Modification to an existing compressor station in Connecticut
- Construction of one new meter station in Connecticut and two new meter stations in Massachusetts
- Modifications to existing meter stations in New York, Connecticut and Massachusetts
- We anticipate placing the AIM Project fully into service in November 2016.
